Perennials for Annual Combinations

The 2017 Four Star catalog varieties are arranged into separate Annuals and Perennials sections. Growers often use perennials in their annual container production and we want you to know that these varieties are still available and can be found in the Perennials section. Our Proven Selections perennials are offered without a branded container.

ARTEMISIA

Quicksilver™

PW PROVEN WINNERS   *US PPAF*

6 – 10" Spreading   Zone: 5 – 9   Vigor: 3   Tray Size: 84

Extreme drought and heat tolerance make this accent plant extremely versatile in the garden and combinations.

DELOSPERMA / PERENNIAL

Button Up™

6 – 8" Trailing   Zone: 5 – 10   Vigor: 2   Tray Size: 84

With a multitude of bright button blooms, this perennial flowers from early summer through fall, behaving more like an annual that a traditional perennial. Drought and disease tolerant, they flourish in well drained soil.
