

Proven Winners® Professional Water-Soluble Fertilizers

Formulated for Proven Winners® and Proven Selections® Plants

Benefits

- Formulated to minimize and correct pH-related challenges.
- Four standard blends to match your water alkalinity.
- Developed to improve the performance of Proven Winners® and Proven Selections® plants.
- Made with 100% iron EDDHA, the best chelated form of iron for plant uptake.
- Competitively priced.
- Packaged as 25 lb. bags with distinct color-coded labels for easy identification.

How to Order

- A water test is needed to determine the best formula to use. Contact Four Star customer service at 734-654-6420 for easy-to-follow instructions and a submittal form.
- Collect your water following these steps:
 1. Allow water to run for five minutes to clear lines. This will ensure the sample is from untreated greenhouse water with no fertilizers or other chemicals.
 2. Triple rinse a clean plastic bottle (water or soda bottle recommended) with the water to be tested, emptying the bottle each time.
 3. Fill the bottle to the top and securely tighten the cap.
 4. Clearly label the bottle with your business name and a description for identification purposes (description will appear in report).
 5. Complete the submittal form and enclose a check made payable to QAL with your water sample.
 6. Send sample to: Quality Analytical Laboratories, 925 Cherry Street, Panama City, FL 32401. Phone 850-872-9595 fax 850-872-9353.
 7. Tests results will arrive in 7 – 14 business days. A copy of the results will also be sent to Four Star.
 8. Four Star will contact you via email or by mail with fertilizer recommendations.
- Once a water test is on file, a fertilizer order can be placed by contacting Four Star or your preferred broker.
- Four Star will issue a credit for one water test per year with an order of 12 or more bags of fertilizer.

Products Produced by GreenCare Fertilizer

GreenCare Fertilizer manufactures its products in a controlled environment so they are completely uniform, bag-to-bag and within the bag.

PRIMARY FERTILIZERS

14-3-14 + Minors

Low Alkalinity Formula with FeEDDHA

16-4-16 + Minors

Moderate Alkalinity Formula with FeEDDHA

18-5-18 + Minors

Moderately High Alkalinity Formula with FeEDDHA

17-4-17 + Minors

High Alkalinity Formula with FeEDDHA

SPECIALTY FERTILIZERS

12-3-12 + Minors

Cold Weather Formula with FeEDDHA

Contains high levels of Nitrate Nitrogen for cold weather conditions

16-4-8 + Minors

Greening/pH Reducing Formula with FeEDDHA

A valuable tool to correct increases in pH and quickly green up a crop
